ShshdBlueGold by 2020/05/03

ShshdBlueGold (Shsh) is a tool for jailbreaking iOS devices. It allows users to install custom firmware (CFW) on their devices, which can be used to run unsigned applications and modify the system. The tool is available for various iOS versions and device models. For more information, visit the project's GitHub page: [https://github.com/shsh03/shsh03](#).
